
Time to get Nakid?

Okay, so it's obvious we are truly obsessed with chocolate. But this is Zazubean chocolate, the first Canadian, organic, fair-trade and functional chocolate on the market. Developed by two Vancouver women, the dark chocolate bars include such high-octane ingredients as matcha tea and goji berries (Ego), mint and cocoa nibs (Lunatic), espresso, ginseng and maca (Zing), dark chocolate and cocoa nibs (Nakid), acai and cherries (Flirt) and chili pepper and cinnamon (Hottie) plus other botanicals. Check zazubean.com for retail locations.
